

EVERYTHING YOU NEED, ALL IN ONE PLACE

THINK

Powering your industrial automation system has never been easier.

Using ON Semiconductor solutions to power your industrial automation designs can make them more reliable, flexible, and affordable. No matter what package size or power levels you need, we offer a comprehensive portfolio of components that are built to work together as a single, end-to-end solution—helping you build your system faster and more efficiently. We design our solutions with a deep understanding of the power demands you face, so when you're looking for the smartest solutions to your complex challenges, Think ON.

For cutting-edge solutions, design tools, and resources, visit www.onsemi.com/automation.
